Give It 6 Months

- Unless the congress passes a bill be extend it before June 30 the ex-cess profits tax will expire, taking with it several billions in annual federal government income.

You've read the headlines about this tax light and how it promises to run right down to the June 30 deadline. You know that President Eisenhower and the budget-balance ing minds of the congress want the which date would coincide with the worth of diamonds and watches, it time that a 10 per cent cut in per was unofficially estimated today. sonal income taxes becomes effective automatically.

many business men, particularly bars, Chief of Police Clarence Bak in the South and West, are pretty er said. bitter about the excess profits tax of the revenue problem.

Personally I think the country ought to follow Eisenhower's cue and bear with the EPT for another high as \$3,000.

Ix months, but then resolve to wash its hands of this crackpot kind of taxation forever after. Because the whole idea of the sicalled excess profits tax is absolutely foreign to our American way of doing business. It's something that has crept into our politics from the cartel or state-monopoly style of business which is peculiat

I should first explain that corpoations, like individuals, pay regular federal income tax, and this in itself constitutes double-taxation because the corporation tax comes ahead of dividends, and then the stockholders have to pay income tax a second time when they cash the dividend, But on top of al this there is that new and foreign thing called "the excess profits - which isn't that at all but a penalty imposed on a new factory for being successful and growing

For instance, an old company with a long record of earnings Farmers have taken a big cut in wouldn't be bothered much by the pay for the first four months of EPT, for its gain in sales from 1953, says an Agriculture Departyear to year would figure out as ment report. a small percentage of its normally of 25 to 50 per cent would soon be ing period of 1952. penalized under the EPT because At this point I come to a specific 691,970,000, while receipts for the at Lufkin, Texas, with which The 0132,627,000. #### ODM to Stockpile **Executive Talent**

By STERLING F. GREEN

WASHINGTON, (A) - The Office f Defense Mobilization plans to stock-vile executive talent, as well as war materials, for any future war emergency.

Director Arthur Arthur S. Flemming, it was learned today expects to obtain, from key officials he is 'berowing' temperarily from industry, promises that they will come back to Washington when and if the nation mobilizes.

Flemming hopes to obtain from the men and their companies assurances that;

1. Having served six months or year in ODM, they will return to Washington periodically for brief "refresher" tours of duty, perhaps as consultant on special defense

2. They will keep up to date the information in their personal loyalty-security files here.

#### Ike Contends Plane Number Not Important

(Editor's Note: This is the last of four stories discussing the dispute aroused by President Eisenhower's cutback in Air Force spending.)

By DON WHITEHEAD (For James Marlow)

WASHINGTON (#) -- In World War II, Japan was hit by U. S. Warren and baby girl, Hope, Mrs. Air Force raids ranging up to 500 Church has been postponed until W. L. Reese, McCaskill, Troy Polk, planes in strength. But single planes dropping single atomic bombs jarred the enemy into final surrender.

Today the U. S. has stockpiled atomic bombs far more destructive than the bombs that exploded over Hiroshima and Nagasaki.

President Eisenhower said reently security cannot be pegged o any given number of planes. As an example he noted that three aircraft with "modern weapons" - the atomic bombs - "can practically duplicate the destructive power of all the 2,700 planes we inleashed in the great breakout from the Normandy beachead."

This being true, why shouldn't the Air Force trim down the size of its planned force in relation to the increased destructive power of the atom bomb - rather than insist on an immediate decision to build up to 143 wings

There is strong evidence administration had this same question in mind in calling for a new review of Air Force needs.

But the Air Force argues the number of planes needed cannot be related to the power of the atomic bomb in this fashion. In open revolt. The Air Force is urging Congress to accept its 143wing goal rather than wait for the Eisenhower administration to review the entire defense field.

Gen, Hoyt S. Vandenberg, Atr Force chief of staff, told senta tors: "Any relationship between the amount of payload that you can carry on a bomber today does not give you anything at all in relation to the number of planes you need."

Then he went on to argue that. oughtly, the Air Force must us the same number of planes to get atom bombs on a target as it needs to deliver the old type bombs on a target. He explained this is so because the bomber formations have interlocking fire to protect each other and insure delivery of

the bombs.

power and planes.
The Air Force first advocated a goal of 155 wings in August, 1951, mischief. I realize I'm wrong, but en quite a shine to my man. Right and estimated it would have to can't seem to control my feelings. now my husband makes a big have 22,790 planes to equip them.

Tom says it's because I'm the take her seriously.

automatic washing machine. The machine lid is protected from dye stains by a large plastic freezer-bag which the homemaker above is slipping over the lid. Aluminum foil may also be used. Dye, dissolved in an enamel pitcher, is strained through cheesecloth into the hot water in the machine. After clothes are added, the machine is set to run the wash-rinse cycle.

BUTTER BARGAIN-These housewives seem to be enjoying buying butter at 55 cents a pound. The sale, in a New York supermarket, was part of an experiment by a butter company to prove to government officials that the current surplus in butter could be reduced by putting butter on a free market at lower prices. The farmers would then be guaranteed a fair income through increased sales.

#### Sabre Jets **Blast Six Red MIGs**

SEOUL, (A) - Hot U.S. Sabre jet ... ilots today blasted six Communist MIGs from the North Korean

which extended nearly to the Manchurian border. Col. Robert Baldwin of Sherman Oaks, Calif., qualified as acc by drowning his fifth MIG. He also has damaged three. Ground action was light except for continued pounding by the Reds

against South Korean lines on the East-Central Front. Three Russian-built MIG jets were destroyed and two others damaged, the Fifth Air Force reported, by Sabre shielding Allied fighter-bombers hitting a communications center northwest of Sak-

chu, near the Mancurian border.

A slab of steel can be rolled intoa finished length of sheet steel in approximately 90 seconds on a modern continuous hot sheet and strip mill.

#### McCarthy Sees Refusals as a Red Sign

WASHINGTON (UP) - Sen. Joseph R. McCarthy (R - Wis.) believes that any witness before his committee who claims constitutional rights in refusing to tell whether he is a Red "obviously is a Com-

The Wisconsin Republican said that when a witness answers ('no' when asked if he is a Communist and is speaking the fruth —''.that would not incriminate him.",

"The only way that he could be incriminated is if he were a Communist," McCarthy: said.

"So, when a man confes before our committee and says 'I won't 👪 answer because if I told the truth I might go to jail,' it means of course, that he obviously is a Com-

McCarthy is chairman of the Senate Permanent Investigating subcommittee which is investigating communism.

Paul Scott-Rankine, chief of the Washington Bureau of the British Reuters News Agency, challenged McCarthy's statements on the NBC radio-TV show, "American Forum of the Air," last night.

Scott-Rankine charged that the McCarthy controversy" has made he United States a country in which the people are afraid to speak freely or to "confess mis-takes" lest they lose their jobs or be "incriminated" or intimidated."
